

NEXT GENERATION CONTRACTORS

RAV Attachment (Rail Assistance Vehicle)

The RAV was developed by Next Generation Contractors to provide a unique solution for railway maintenance work, especially on hard to reach sites. The Rail Assistance Vehicle (RAV) provides mobile access to water, a high pressure gurney, fire fighting hose and spray bars for dust suppression.

The hydraulic tail lift provides ergonomic access to equipment, oxy supplies and hot works boxes.

Key Features

Balloon Tyres

Balloon Tyres enable the Dump truck to climb ballast to access railway and to drive along railway lines .

Water tank and spay bar

1400L built in water tank with baffles which supplies a series of spray bars for dust suppression.

High Pressure guerny and hose

A high pressure guerny and a fire suppression hose, both powered by Honda 160 motors.

Hot works box and Hydraulic Tail Lift

Hydraulic tail lift for ergonomic access to equipment, oxy supplies and hot works box.
